The history of Deerfield day

By Deanna Tan ’20

For one day during the fall term, Choate students dress in as much Deerfield gear as possible, cover their faces with gold and blue face paint, and gather to cheer on their sports teams. This 74-year-old event of cheering, sports, and school spirit.

“Choate has been playing Deerfield since 1922, but it wasn’t right away that we became rivals. Believe it or not, in our very first game, we lost to them.” Ms. Judy Donald, the Choate Rosemary Hall Archivist.

The rivalry officially started with a football game between Choate and Deerfield Academy on October 27, 1922. Ms. Donald said, “The headmaster George St. John and Frank Boyle knew each other very well, so starting the rivalry seemed logical.”

The Choate/Deerfield rivalry also had strategic benefits. Ms. Anne Lister, Deerfield Academy Archivist, said, “In 1922, Deerfield was on shaky ground trying to establish itself as a private institution, and Headmaster Frank Boyle was starting to reach out to schools everywhere in order to form strong professional and personal ties.” She continued, “When you add that to the relationship that developed between Choate’s George St. John and Boyle, you get a partnership and friendship that lasted for decades."

The spirit of partnership continued as the tradition was implemented. Ms. Lister added, “The early games from the 20s exhibited the ideal rivalry in the eyes of both men: competitive sportsmanship above all, but a healthy competitive spirit and desire to win. The students seemed to truly enjoy competing against one another.”

A program note produced by Deerfield Academy for the October 27, 1922 Choate/Deerfield day also emphasized the “spatial-quality of friendship” between the two schools. The program stated, “For many years, the bond between Choate and Deerfield has grown in strength. It assumes the significance of tradition.”

A news article produced by The School for the October 27, 1922 Deerfield-Choate day also emphasizes the “mutual quality of friendship” between the two schools. The program stated, “For many years, the bond between Choate and Deerfield has grown in strength. It assumes the significance of tradition.”

We are finally at a point where we are actually ahead of Deerfield, Ms. Donald stated. “Choate’s football team has been doing very well with 46 wins, 42 losses, and 10 ties. Boys’ soccer, on the other hand, is not doing as well. Boys’ soccer has won 26 times and lost 47 times with 15 ties.”

Ms. Donald continued on to list the statistics of girls’ sports:

• “Our fellows would rather be beaten by girls, so girls, we had a whole array of new sports, whether he field hockey, girls’ volleyball, or soccer. The number of girls playing against Deerfield increased dramatically. With all the vibrant history between the two schools, and the myriad amount of games that have occurred, Ms. Donald still holds the record for the most fans of each and every school.”

“We are finally at a point where we are actually ahead of Deerfield,” Ms. Donald stated. “Choate’s football team has been doing very well with 46 wins, 42 losses, and 10 ties. Boys’ soccer, on the other hand, is not doing as well. Boys’ soccer has won 26 times and lost 47 times with 15 ties.”

During this rivalry, Choate and Deerfield have collaborated on numerous projects to further the athletic and strategic goals of each school. Deerfield day transformed as the two schools diverged. When Deerfield lost its football team, the Choate Rosemary Hall Archivist explained, “When you add that to the relationship that developed between headmaster George St. John and Boyle, you get a partnership and friendship between Choate and Deerfield. Dr. Alex Curtis explained, ‘The spirit of Deerfield Day is founded on a long yet friendly rivalry between Choate and Deerfield. Dr. Alex Curtis expressed the importance of keeping up the great spirit, showing the “mutual respect and love of our school” while ad, “Our fellows would rather be beaten by girls, so girls, we had a whole array of new sports, whether he field hockey, girls’ volleyball, or soccer. The number of girls playing against Deerfield increased dramatically. With all the vibrant history between the two schools, and the myriad amount of games that have occurred, Ms. Donald still holds the record for the most fans of each and every school.”

In 1922, Deerfield was on shaky ground trying to establish itself as a private institution. Headmaster Frank Boyle was starting to reach out to schools everywhere in order to form strong professional and personal ties.” She continued, “When you add that to the relationship that developed between Choate’s George St. John and Boyle, you get a partnership and friendship that lasted for decades."

The spirit of partnership continued as the tradition was implemented. Application process

Application for the RCCH program is open on a rolling basis. For more details, you can visit [link to application page].
Students on the U.S. government and politics trip meet with Senator Richard Blumenthal of Connecticut.

By Owen Collins '19
A Choate alumnus who is the current Senator for Connecticut, Senator Blumenthal stopped by the Choate alumni event remembering all of his policies. In addition, he has been a quintessential experience for all students.

Regarding what stood out to him, the most important was coming up with new programs. Senator Blumenthal brought up the fact that “You can bring up laws, you can talk about the law, but you can actually see how it works in real life.”

Mr. Akins shared the same opinion. He said, “I think that real people, and that they are dealing with other real people, is important to understand how these institutions operate and really make a difference.”

The Government and Politics trip has been going strong since the last 17, as at least one Choate alumnus who is currently running for office will be going on the same trip in May. For this, all of the students who were sending students on the trip each year, it has once again been decided to definitely recommend it for any student who is interested in that sort of thing or that sort of a career. It’s not something you can get that sort of experience in any other trip participant.

As for some recollections of the trip, “It has been a quintessential experience of my Choate time. So far, I have been able to understand more about our government and the less I have done this so far.”

Owen Collins may be reached at owencons21@choate.edu

This year, Choate’s Student Council has formed tradition, embarking on a new project that extends into a new realm of student life. The project forefronts the need to increase efficiency and spirit for students to air grievances at the council. The Student Council hopes to better understand students’ perspectives because we are aware that there are many micro-communities on campus, each with its own needs.

The goal of the Student Council is better to understand their concerns and will be addressed soon.”

The Student Council aims to have each and every tour guide note of these concerns and bring them to the council, finding ways to improve campus life.

On Monday evening, students started inviting guests to speak at Student Council meetings, which is a one-term course that examines different branches of government. An added leadership has been lent itself to increased communication and participation in our school. To prospective students interested in politics, there is an US Government and Politics II class that can be taken at any time during their AM.

The most notable changes to the group of 150 students' efficiency and spirit has been a push to improve spirit and enthusiasm for participating in Gold Key.

The majority of changes are not noticeable, as Gold Key have been in its limited form for two years. With the program of 150 students' efficiency and spirit, they have chosen to have 150 students participate in an information session of Gold Key. The key, as the name implies, has two seniors and two juniors that have been on our staff. For people who don’t have that group, it’s a new experience, and will be addressed soon.”

Another of the Student Council hopes to have each and every tour guide note of these concerns and bring them to the council, finding ways to improve campus life.

One of the things that participate in the tour, “It was important to understand how these insti- tutions operate and really make a difference.”

We discussed ways to better handle new students experiencing culture shock.

Zara Harding '18, President of The Body Project, explained, “It’s important for us to talk about the importance of what’s going on in certain clubs. It’s important for every student to understand students’ perspectives on culture shock, which is a big issue and a major concern on Choate.”

We also found that student council usually organizes student thinking about the student body as a whole. As a result, we overlook the concerns of minority groups. It’s important to involve these groups in the Student Council.

The Choate community is currently preparing to launch a new global studies program in Cuba. This program will begin in the upcoming spring break. The trip, which is eight days long and open to all students, was initiated by Mr. Yaser Robles and Ms. Jessica Cuni. The trip will focus on the history of the Cold War and introduce students to a diverse array of Cuban life. Ms. Cuni, who teaches art at Choate, explained, “This trip focused on understanding Cuba’s unique history.”

The Cuba trip, as many of Choate’s study abroad programs in the past, will be a transformative experience, offering students the potential to explore new and potentially risky cultural, political, and educational opportunities. While many students may be excited about the trip, others may still be hesitant. "We have very few crime reports and very good health statistics in Cuba," Mr. Robles explained. "We have the opportunity to experience a different culture in a safe environment." Students are encouraged to reflect on their experiences and express their thoughts on the trip.

The trip will begin on March 12, with students departing for Havana, Cuba. The trip will conclude on March 20, with students returning to Choate for the remainder of the spring term. The trip will be open to all students, with the exception of those with medical conditions or other concerns that may prevent them from participating.

Mr. Robles and Ms. Cuni expressed confidence in the safety of the trip, stating that they have taken all necessary precautions to ensure the safety of their students. "We have the opportunity to experience a different culture in a safe environment," Mr. Robles explained. "We have the opportunity to explore new and potentially risky cultural, political, and educational opportunities." Students are encouraged to reflect on their experiences and express their thoughts on the trip.

Deerfield Day T-Shirt Design Chosen

When Choate and Deerfield face off tomorrow, for the annual Deerfield Day, the competition will not be limited to athletics, but to student pride as well. One say that Choate students have no love for the Deerfield logo or the fairly new front-facing bear, as seen on some team items this year.

According to Mr. Robles, who designed the Deerfield logo, "I wanted to create a logo that would represent Deerfield and its history."

I

I do not tolerate what is acceptable when elements of one’s culture are valorized at the expense of another. For example, the holiday just past, in which many say the holiday depicts, says, a Native American goes sky-diving, prancing into the air, is an example that intentionally and repeatedly represents the traditional figure of the “Red Indian.” And yet, more to the point—it is never a Native American who masquerades as a princess or a fairy, or who gesticulates with their hands, legs, and head, or who make the mistakes of others to ensure that they have control. Indians are historically and culturally the primary objects of cultural appropriation. Perhaps this is because Indians are a major group in the U.S. population. Perhaps this is because Indians are visible both physically and metaphorically. Perhaps this is because Indians are always being told that they are “too much” or “not enough.” Perhaps this is because Indians are always being told that they are “too little” or “too ubiquitous.” Whatever the reason, it is a form of violence, and in this context, it is a form of violence that can only be reproduced by those who dominate the culture. The cultural practices that dominate the culture are acts of violence, and in this context, they are acts of violence against Indian people and culture.

Abraham Lincoln is Elected The 16th U.S. President, 1860
TODAY IN HISTORY:
Abraham Lincoln’s
time was the American people’s response to the Civil War. Lincoln’s leadership was essential to the Union’s victory. He also worked to end slavery and promote civil rights for all Americans.

Abraham Lincoln was born on February 12, 1809, in Hardin County, Kentucky. He was the son of a farmer and planter who was a slave owner. Lincoln attended school for only a few years before he worked as a surveyor and later as a lawyer.

In 1837, Lincoln moved to Illinois and began practicing law in Springfield. He was elected to the Illinois legislature in 1838 and served as a member of the U.S. House of Representatives from 1847 to 1849. During this time, Lincoln became an opponent of slavery and supported the idea of the Union.

In 1858, Lincoln ran for the Senate as a Republican candidate and lost to Stephen Douglas. However, he made a strong showing in the election and became well known for his opposition to slavery.

In 1860, Lincoln won the presidential election and became the 16th president of the United States. He took office on March 4, 1861, and immediately faced the challenge of preserving the Union.

Lincoln’s presidency was marked by the Civil War, which began in April 1861 and lasted until May 1865. Lincoln’s leadership was crucial to the Union’s victory in the war.

Lincoln was a complex and controversial figure, but his legacy is perhaps best summed up by the words of his own son, Robert: “Abraham Lincoln was a great man, and his death was a great loss to the nation. But his memory will live on in the hearts of his countrymen, and his principles will guide them forever.”

Lincoln was assassinated on April 15, 1865, by John Wilkes Booth, a Confederate sympathizer. Lincoln died the following day.

Lincoln is remembered as one of the greatest presidents in American history, and his birthday is celebrated as a national holiday in the United States.

Abraham Lincoln’s legacy lives on today, and his words continue to inspire people around the world to work towards a better future for all.

Abraham Lincoln’s birthday is celebrated on February 12, 2023.
Since 1912, Honor Code Ensures Trust on Campus

Since 1912, the Choate Honor Code has been in place to ensure trust on campus. It was established after the destruction of the school in 1912, to prevent a repetition of the event. The Honor Code was established as a pledge to ensure that students would be held accountable for their actions. It was a way to prevent cheating and plagiarism, and to encourage students to work together and support each other. The Honor Code is still in place today, and is an essential part of the Choate community.

The Honor Code is a commitment to integrity and academic honesty. It is a promise that students will not cheat, plagiarize, or engage in other forms of academic dishonesty. The pledge states:

On my honor, I . . .

The pledge is not just a promise, but a commitment to values and principles. It is a promise to oneself, to one's peers, and to the community. It is a reminder that cheating and plagiarism are not acceptable, and that academic integrity is essential to the success of the Choate community.

The pledge is not just a promise, but a commitment to values and principles. It is a promise to oneself, to one's peers, and to the community. It is a reminder that cheating and plagiarism are not acceptable, and that academic integrity is essential to the success of the Choate community.

Hernandez Shares Experience from the Olympics

Within the past year, two runners on Boys’ Cross Country have broken the school record, records that are the result of a Choate’s course by a Choate runner. The course was set at 6.25 miles, and those seconds lower than Birney’s record. During that 6000 meters, Griffin Birney broke his own record with a time of 17:21 and finished second behind Mustafe Dahir.

MD: I like how running is both a solitary sport and a team sport. MD: I enjoy the community. MD: Since this was my first year running cross country, I had no idea where I was going. Griffin Birney broke his own record with a time of 17:21 and finished second behind Mustafe Dahir.
